Profile highlights:

• Programming Languages: Javascript, Python, C++, and C
• Markup languages: HTML, CSS, and Markdown(MD)
• Web Libraries: React.js
• Framework: React Native, Bootstrap
• Web Automation tool: Selenium-Python(Just Started Exploring)
• Database Technologies: MongoDB and SQL.

Experience

Freelance Software Engineer
Freelance
Jan 2019 - Present (1 year 9 months +)
Job Title : Freelance Web & Application(ios+android) Developer
----
- As a Web and Application Developer in freelancing, I am developing Websites(For Business/Individual), Web Applications, and Mobile Applications(ios/android). Besides web development, I do write Test Automation scripts for Web, Web applications, and Mobile Applications.
- For Web and Web Applications I am using React.js(JavaScript's library) and Bootstrap(CSS's framework) in front-end and Node.js in the backend with MongoDB or SQL(depending upon the nature of the taken project) as Database.
- Mobile Applications are building on React-Native to support both the major mobile platform(i.e Android and ios) for Native flexibility and Better UI with a single-handled code for both.

Technologies:

NODE.JS / REACT.JS / REACT NATIVE / BOOTSTRAP / MONGODB / SQL / SELENIUM(JAVASCRIPT/PYTHON)

Junior Programmer
HiTech iSolutions LLP
Mar 2019 - Feb 2020 (1 year)
Job: Junior Programmer

- As a junior Programmer at Hitech isolution LLP, I was working on field of Web development And Process automation to fulfill the business requirements for the company and client's from around the globe.

Technologies Used:

- We were using React.js(a Javascript library) and Bootstrap v4(a CSS framework) for web frontend & Node.js for web backend. We were using mongoDB and Sql (depending on nature of projects) as our database.
- For Mobile Applications we were using React Native to support both the major mobile platform(i.e Android and ios) for Native flexibility and Better UI with a single handled code for the both.
- Web Automation and Task automation we generally did on two programming languages i.e JavaScript and Python.
